MASTERCHARGE CONNECT:

The smart solution for charging your vehicle!

MASTERCHARGE APP

Mastercharge App is the dedicated app for Connect models only, for the remote monitoring of charging parameters (voltage, current, time, energy, cost) and the history of vehicle charges.

It is also possible to set the maximum current towards the vehicle and the cost of energy.

CONNECTIVITY

It features Wi-fi and Bluetooth connectivity.

SAFETY AND EXCLUSIVITY

Mastercharge can be activated or blocked by the supplied RFID badges.

Compactness and innovative design make Mastercharge suitable for both indoor and outdoor installations in sheltered areas (IP54, operating temperature -20° C; + 50° C) in houses or in residential or commercial areas.

TECHNOLOGY

It implements the OCPP 1.6 (Open Charge Point Protocol) communication protocol for managing energy between the network and charging points.

It is designed for Power Management (Mod. 740 Connect only) systems that autonomously regulate charging power based on the available power from the utility.
